

REIMAGINING RENOVATION

Transforming Europe's buildings with Digital Innovation, Sustainable Materials, and Minimal Disruption

THE IMPACT

70%

FASTER RENOVATION

30%

COST REDUCTION

81%

LESS NOISE DISRUPTION

OUR APPROACH

Innovation at Every Step

DIGIFAB integrates digital tools, green materials, and user-friendly processes into a seamless renovation workflow.

- **Digital Twin Technology**
Accurate 3D scanning & BIM
- **Occupant-Centric Design**
Low disruption, real-time monitoring
- **Sustainable Materials**
Bio-based, recycled prefab
- **Energy Performance**
Smart insulation toward NZEB

Join the Renovation Revolution

Renovation Challenge

Buildings = 42% of EU energy use

Renovation rate = only 1%

DIGIFAB Solution

Digital – Efficient – Scalable

Full process: Scan – Design – Install

Why DIGIFAB Works

- **Speed:** 200m² panels in 2 days
- **Savings:** Up to 30% cost reduction
- **Comfort:** Low noise, low dust
- **Precision:** Automated, perfect fit

Digital Renovation

3D Scanning - Prefab - Install

Live Testing

3 Demo Sites across Europe
